Product Description

Gotcha Sprayer Pro Adaptor GSP0205

The Gotcha Sprayer Pro Adaptor is an adaptor to put on the end of an extension pole to spray an aerosol or dispense a dust for hard to reach areas. It is designed for daily use by a professional exterminator. Typical applications are for carpenter bee holes, wasp and hornet nests, dusting tall fruit trees and dusting gardens. With this adapter you can reach areas without ladders, reducing falling risks. It also has an adjustable angle so you can use it to apply dust without bending or climbing.

- Heavy-duty nylon material with a cord that is diamond braided
 - Strong lever to trigger powder dust
 - Extra ribbing for extra strength
 - Improved metal string guide
 - Diamond braided string, will not fray
-
