Product Description

Features

Made in America -A majority of STIHL products sold in America are made in America of U.S. and global materials.

Double-Sided Blades -The dual-ground blade system provides a clean cut and is ideal for cutting through stronger, thicker branches.

Multi-Function Control Handle -Having easy access to all of the controls on one comfortable handle helps makes it easier to complete tasks so the operator's hand never has to leave the handle.

With a 40" shaft length and an array of professional features, the HL 94 K (0°) extended reach hedge trimmer is a must-have for landscapers who do hedge work for extended periods of time. Its fixed-angle trimming head delivers constant cutting power, while its reduced-weight gearbox is more comfortable to hold and easier to maneuver than previous models. The HL 94 K also features the STIHL-exclusive ECOSPEED throttle set wheel for variable speed control. This allows professionals to reduce unnecessary fuel consumption, keeping you working longer between fill-ups. Finally, rubber control handles provide a comfortable grip, letting you cut with confidence.

Warnings and Safety

Note: STIHL engine products with the Caring for Nature logo are cleaner than EPA Standards for exhaust emissions.

STIHL products sold through U.S. STIHL Dealers are for distribution in the United States only.
